- ACTION

Grand Chemin

In collaboration with the Grand Chemin School

The school is situated on the edge of the R.D.957 departmental road. Speeding juggernauts and cars use it daily. A child's drawing was designed to recover the part of the road in front of the school with road paint. This project enabled the school to be signalled, it also created a shared traffic space where children are priority. Authorization was finally only given to draw on the car parks.
