

- ACTIVITY

Détournements of everyday environments

- ACTION

Wooden boards

In collaboration with the Émile Zola High School and the bar l'Artiste Assoiffé

To create a space for allowed tags in the classroom, some twenty wooden boards were put on the tables of the study room in the Émile Zola High school in Rennes. After three weeks the boards were moved to the Artiste Assoiffé bar to confront tags of the teenagers to another public, and to continue the graphic exchange.
